TITANIUM RANGE

Ideal for **experienced users** looking for more **precise cutting** in soft or hard wood. The titanium treatment **reduces friction in the wood and limits heat build-up in the chain**. It also extends the lifespan of the cutters **thanks to its high resistance and performance**.

For markings that only need to be visible for a short
time. Due to the chalk used in the
composition, the marking does not last more than
two weeks and disappears in case of
persistent rain or very frequented places. Thanks to
the plant-friendly components,
this marking is suitable for gardening and
landscaping, as well as for sports and golf fields.
